Real World Issues
- To-Do List: Uses the create story and have a home screen. Delete it by having a check mark
- An alarm to when to water your plants and other stuff: Use alert to create the alarm and make it using time
- A daily journal which helps someone's well-being: Create this by having text input and adding it like create story
- Daily Weather Notifier: Uses axios and those to show what the weather is like at the time
- Movie Reccomendation: Has a library of movies and randomly generates one for you, after it deletes from it
- Grocery List organizer: The same as to-do list but for groceries
- Random Meal generator: Has a library of meals and generates one for you so you can try new things.
- Personal budget Calculator: Same as a to-do list and makes it have touchable opacity and have them add up.
- Expense Splitter: Same as Personal budget calculator but makes it if you're with family how to split the check
- Fitness App: which gives you exercises on the day of the week
